01 PROFILE

Flutter developer with **3+ years of freelance experience** building cross-platform Android and iOS applications. I turn Figma designs into responsive Flutter UIs, connect apps to Firebase, Supabase and Node.js backends through REST APIs, and ship **AI-powered features**. Comfortable owning the full cycle, from development and testing to Google Play Store release.

02 EXPERIENCE

Freelance Flutter / Mobile App Developer

3+ years

Self-employed · Remote · Android & iOS

- Developed mobile applications in Flutter for Android and iOS.
- Built app UIs and integrated REST APIs and backend services.
- Integrated Firebase Authentication, Cloud Messaging and Crashlytics, plus other backends.
- Developed AI-powered application features through AI API integration.
- Handled testing, debugging and performance improvements.
- Prepared and published Android applications on the Google Play Store.
- Built websites and full-stack web apps with Next.js.
- 5.0 rating on Fiverr from 14 reviews and 20 completed orders.

CASE STUDY · LIVE ON GOOGLE PLAY

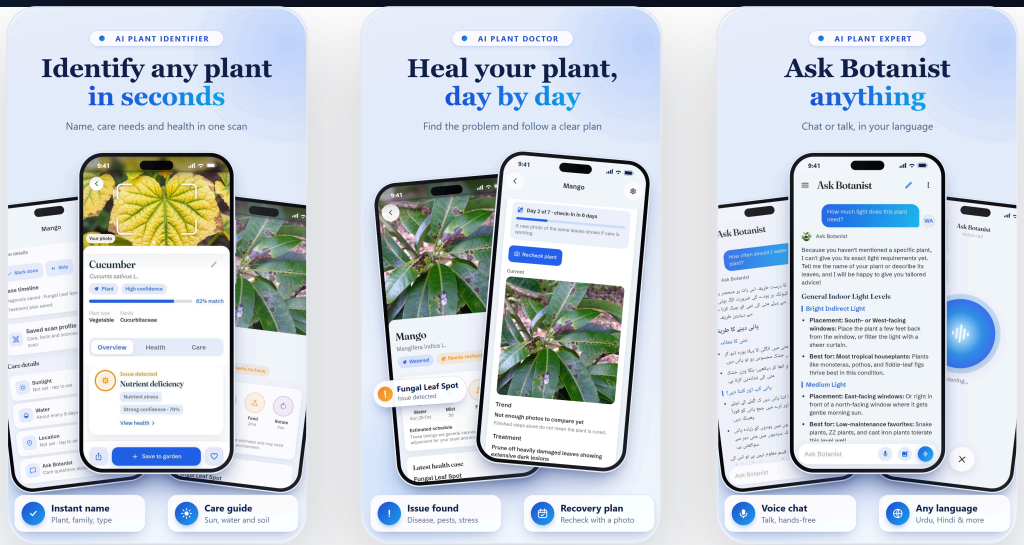

GreenScan Plant AI

Know every plant. Help it thrive.

Point the camera at a plant to learn its name, spot problems early and get a clear care plan, with an AI botanist and reminders in the user's own language.

Get it on Google Play | Visit website ↗

01 HOW IT WORKS

Flutter App
GetX state & routing
Local store: garden, reminders

→

Express API
Node.js on Vercel · /api/v1
Verifies Firebase ID token

→

MongoDB Atlas
garden · chats · photos

Google Gemini
health · chat · translate

PlantNet
plant identification

Perenual
care data

02 KEY FEATURES

01 Identify any plant
Name, scientific name, family and care basics from one photo.

02 AI plant doctor
Finds likely disease, pests or stress, rates severity and gives a step-by-step plan.

03 Day-by-day recovery
Each diagnosis becomes a case with a daily plan, recheck reminders and a timeline.

04 Ask Botanist (AI chat)
Type or talk hands-free about watering, light, pests or yellow leaves.

05 Your whole garden
Every plant with photos, notes and groups, plus scan history and wishlist.

06 Care reminders
Water, mist, feed, rotate and prune on a schedule made for each plant.

07 Expert guides
Plant types, care tips, DIY fixes and a leaf-trouble library.

08 Built for everyone
Five languages with right-to-left support, light and dark modes and colour themes.

APP FACTS

Platform	Android 7.0+
Languages	5, incl. RTL
Themes	Light / Dark + 3 colours
Sign-in	Google or email
My role	Development & release
